Internship Program 2014

Ghostly International is an internationally acclaimed record label with offices right here in Ann Arbor. Ghostly offers a wide array of music ranging from independent rock to left-field pop, and from ambient electronic to dance floor techno. However, more than just a record label, Ghostly is comprised of a small group of entrepreneurs looking to advance their company beyond what it has already achieved.

Ghostly International is looking for interns willing to help grow the company. Interests may include music, design, and the arts, but should also include advertising, marketing, and other aspects of business. Interns will learn about the music industry and what makes a company like Ghostly work. Because of that, applicants should be interested in what it takes to run a successful music company rather than the perceived glamour of the industry. Duties will include, but are not limited to, assisting in promotional activities, data entry and simple analysis, inventory management, and other miscellaneous duties.

The internship runs from May to August 2014, and may or may not lead to a paid job in the future. Applicants should be highly computer literate (experience with MS Office, including Word and Excel, Photoshop, Illustrator, FTP, etc. is encouraged) with the ability to communicate ideas effectively and coherently.

Applicants should send cover letters and résumés to Leila Pastore at leila@ghostly.com.

We hope you will take advantage of this excellent opportunity to expand your education!
